

## **ASSOCIATE PROJECT MANAGER - EXHIBIT DESIGN FIRM**

**As an achiever with the ability to consistently work well in a deadline-oriented environment, your teamwork skills will be essential to succeed here at Hill & Partners, Inc.**

Your role as an APM in our company will require attention to detail, respect for customer service and the drive to exceed expectations. This entry-level position is an exceptional opportunity to challenge your ability to organize projects and work within our system, while providing daily support to our Account Managers and Project Managers. You will be expected to frequently travel for work and be comfortable in the non-traditional “whatever it takes” client service environment.

We would welcome specific industry experience, but we are more interested in who you are and how you work, than what you have done. Training under an Account Manager will be a required component of the position, along with a working knowledge of both MAC and PC platforms.

### **OUR COMPANY PROFILE**

Hill & Partners, Inc. designs, produces and manages 3D branded environment programs for businesses participating in trade shows, events and other display-oriented venues.

Located just south of Boston in Quincy, Massachusetts, H&P has been in business since 1995, and is an Equal Opportunity Employer, offering competitive salaries along with a comprehensive benefit package.
